What does reducing water consumption by 15% look like?

SIMPLE WAYS TO SAVE WATER IN YOUR YARD

California is in a serious drought, and every household is being asked to reduce their water usage by 15% to keep our communities thriving. This may seem challenging but making a couple of adjustments in your yard can add up to big water savings. The average Californian uses 196 gallons of water per day, and 60% of that is used outdoors. Using the tips below, find the right combination for you to reduce by 15%, or 203 gallons per week.

WATER EARLY MORNING

OR LATE EVENING

USE A BROOM OR LEAF BLOWER TO CLEAN OUTDOOR AREAS saves 6 gallons every minute

you're not running the hose

REIMAGINE YOUR YARD WITH WATER WISE PLANTS Using drought-resistant plants can

save **30–60 gallons** per 1000 sq. ft. each time you water.

ADJUST SPRINKLER HEADS & FIX LEAKS

saves 12-15 gallons each time you water

Water Saving Fact: A leak as small as a ballpoint pen tip can waste 6,300 gallons of water per month!
